

1. Results

A first figure, present from the initial submission.

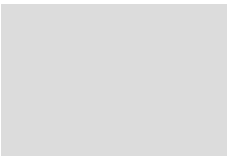

Figure 1: Baseline characteristics.

As shown in Figure 1, ...

A subgroup analysis was added in response to the reviewer’s request.

Figure 2: Subgroup analysis, added per reviewer request.

As shown in Figure 2, ...

A	B
1	2

Table 1: A table, also added.

Figure 3: A third, unrelated figure.

A first equation, present from the initial submission.

$$E = mc^2 \tag{1}$$

$$F = ma \tag{2}$$

This passage quotes Figure 1 again but adds no figure of its own — testing an excerpt with a real label that ISN’T locally owned by the quoted passage (the label lives elsewhere in the manuscript, the passage’s own content has no figure at all).
