1. Introduction

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magnam aliquam quaerat.

Propensity scores were estimated by logistic regression [and their overlap was assessed graphically, following the approach of \[1\]](#).^[R1-1]

2. Methods

The positivity assumption ~~was not discussed~~ [is now assessed graphically, see Figure 1](#).^[R1-2]

[Figure 1: Distribution of propensity scores.](#)

^[R1-2]

A truncation-based sensitivity analysis [has also been performed \(data not shown\)](#).^[R2-1]
